Mohammad Bakibillah Chowdhuryy

PROFILE

I am a skilled IT specialist with an established track record in website development and database management. I have great technical abilities as well as outstanding interpersonal abilities, allowing me to work with a diverse group of clients. I'm looking for new challenges to help me grow and improve my IT skills. My life's biggest interest is putting my technological knowledge to good use for other individuals and organizations.

SKILLS

Coding Languages

Python, C, C++, JavaScript, HTML/CSS

Frameworks/Systems

Django, DjangoRestFramework, FastAPI, ReactJS, Pyramid, Flask, MVC

PROJECTS

- **Bangla Word Predictor:**
Goal of this work is to take Bengali one or more words as input in a system and predict the next most likely word and also suggest the full possible sentence as output. Recurrent Neural Network (RNN) was used with Gated Recurrent Unit (GRU) to train and create the model.
[source: github]
- **AI Chat Bot:**
Goal of this work to answer the regular question. I used pytorch to create the model.
[source: github]
- **E-Commerce:**
Goal of this work is to view and order the product while sitting at home. I used Django, HTML, CSS, JavaScript to create this web project.
